After School Enrichment

Who says that the school day ends at 3pm. Here at St. Mel's we still have lots going on even after the end of the official school day. Whether our kids are hanging out in the schoolyard (weather permitting), participating in our enrichment or academic programs, playing CYO sports or members of Girl Scouts, there always seems to be something going on. We are glad to see so many of our students taking advantage of this programs. Check out some of our students who are learning to be future chess master's through Make Your Move Chess Academy, future Grand Slam champions through Tiger Tennis and future Iron Chefs in the Cooking Club with our very own Ms. Krista and Ms. Frey.

Library Time

There is not doubt that reading has many benefits for children. Technology is a wonderful thing and one of the benefits is that it seems like it can put a whole library right at our fingertips. Despite the convenience of digital media, there is something special about opening a book rather than reading it on a device. Turning the pages, the book comes to life. Here at St. Mel's we want to keep that joy alive for our children. They look forward to going to the library with Ms. Mansour where new worlds await them within the pages of a good book.

Looking Ahead
