On the Farm

Our 2nd and 3rd graders took their learning outdoors this week as they visited the Queens Farm. It is hard to believe that there is a real working farm, right here in the heart of Queens, but at one time, much of the city was farm land. The children had the opportunity to learn about raising farm animals and their importance to our lives. After all, our food supply is dependent on farming. The children also had the opportunity to really connect with nature and of course have some fun too. It looks like the hayride might have been the highlight of the trip.
