CELEBRATING MARTIN LUTHER KING JUNIOR

Dr. Martin Luther King, Jr. has undoubtedly shaped America, and modern society around the world with advocacy for equality. Every January, Americans remember and honor his life, legacy, and the everlasting influence he has had on our country. In our Nursery program, Mrs. Laurenzano shared a biography about Martin Luther King, Jr. after which her class shared their own thoughts about every human being the same despite where we come from, or how we look. They even did a hand painting activity to symbolize the love, compassion, and tolerance we should all have. Thank you, Mrs. Laurenzano for demonstrating to us that it's never too early to learn these beautiful values!
