

# Wildcat Weekly

Issue 23, March 13, 2020

It greatly saddens us that we will not be with your children next week as a result of the current health crisis. However, remember students, that you are not off. Starting on Tuesday, assignments will be posted daily and you are responsible for checking in daily and completing them. Parents we will have more information ready to send out to you on Monday afternoon. We will continue to monitor the situation and I will share information with you as I receive it. We hope and pray that this situation will be short lived and that we will be back to our normal routine soon. As we are in a time of great uncertainty, we call upon our faith to guide us through. Stay safe and stay healthy!

- Mrs. Barron & Mrs. Volpe

## First Penance

We would like to congratulate our second graders as they received the Sacrament of Reconciliation for the first time on Sat., March 2nd. One of the greatest gift God has given us is the gift of free will. Although we are made in His image, we are imperfect, and sometimes we make choices that separate us from God. However, through the Sacrament of Penance, good gives us the opportunity to confess our sins. Through the power of forgiveness, we are drawn back to God. It is easy for God to forgive us, but sometimes it is not so easy for us to forgive each other. As we draw nearer to Easter, let us follow the lead of our second graders, in asking for forgiveness for our mistakes and in our willingness to forgive others. Forgiveness heals the heart and soul.

## Spotlight on Ms. Drazevic's Pre-K

Spring is nearly upon us and the children in Pre-K are blooming like the flowers all around us. The children are having an awesome time learning many new things about the world around them. They have been working hard on their educational skills as well as their social and emotional ones. Throughout their day the children are developing their knowledge and skills through our group meetings, meal times, story time and especially our center/choice times. Center time supports our students' language skills as well as their cognitive, physical, social and even emotional development. In class we have been extremely busy learning many different topics such as transportation, light, and this month's theme – Water. The children are having a great time learning about the way we see and use water. This week we took a look at how water changes depending on how warm or cold it gets. We are so excited to see what the rest of year has in store for us.

### Looking Ahead

- Monday 3/16-Friday 3/20—School closed. Distance learning will be in effect for the week.
- Thursday 3/19—Second trimester report cards will be available on Option C
- Tuesday 3/25—NYS ELA Assessment part 1
