

# Wildcat Weekly

Issue 15—January 13, 2023

## It's Basketball Season

Although we had hoped to start earlier, the basketball season is finally upon us. We had a record number of children sign up to play both from the school and the larger parish community and we are excited to see our gym full of energy and excitement. From the littlest wildcats who are just learning to dribble, to our bigger kids learning to pass and perfecting their lay ups, all are having a great time, not only improving their basketball skills but also developing teamwork and cooperation. Organized sports have so many benefits for children physically, emotionally and even academically, and we are so thankful for our CYO coordinators and all of our volunteer coaches who offer their time and expertise to make this program possible. Go Wildcats!

# PK is going places!

Our pre K classes have begun their unit on transportation and they are certainly going places!! Not only have they been reading books about transportation, but they are exploring license plates, traffic lights and all kinds of modes of transportation, from planes, trains and automobiles, to hot air balloons, rockets, bikes, motorcycles and even their own two feet! Even our imagination can take us to far away places. They have worked hard designing and building their own unique modes of transportation and turning our 3K hallway into a transportation museum. Keep moving forward and you will go far, PK!

## Looking Ahead

- Monday 1/16—No SCHOOL Martin Luther King Day
- Tuesday 1/17—iReady Cycle 2 begins
